

Leading a DNA group

You did it! You clicked the link to get equipped to walk someone through the DNA of a Leader. We are so thrilled to walk with you through this journey.

There is something incredible about being able to contribute to the development of someone's walk with God, and the DNA of a Leader helps you uniquely do that. Below are some standard practices we've found to successfully guide someone through the material.

Pre-Game

"How you practice is how you'll play!"

- With this mantra in mind, we encourage you to be prepared for your time together by re- watching the courses.
- Ask the person(s) you're walking with their expectations for this experience. What are they expecting God to do during this time together? With that in mind, when you watch the videos in preparation, ask the Holy Spirit to speak to you about ways to address those expectations.
- Go through the insight videos for the designated base you're going through and have a couple ready to show. This will be a fantastic way to further cultivate conversation.

Game Time

"Will it be easy? NOPE. Worth it? Absolutely."

Here is a metric for a successful time together:

INPUT SKILLS

- · Listen
- · Observe
- · Receive insight from the Holy Spirit

OUTPUT SKILLS

- · Ask powerful questions
- · Encourage
- · Deliver concise responses

Remember,

You don't need to have all the answers!
Share your story. Share what is working for you. Share what God has done in you.

Here's a great scripture to remember in Revelation 12:11 (KJV)

And they overcame him by the blood of the Lamb,
and by the word of their testimony...

- Revelation 12:11 (KJV)

Post Game

"Self-reflection is the school of wisdom."

BREATHE, YOU DID IT!!

- Celebrate completing each class by writing down your reflections from the time together.
- Send a text of encouragement to the person(s) you're walking the journey with...
> > > This is hard work, and you want to celebrate that.
- **START THE PROCESS AGAIN!**
